DETAILED ACTION

1. The response filed on February 2, 2004 has been received.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 8 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re-claims 8 and 13 all words enclosed in parenthesis should be deleted since it made the claim language vague and unclear.

Re-claim 8 recites the limitation "wherefore a force with which said excessive pressure is acting on a movable element of a compression valve whose current position determines a current linear size of a slit of said valve" in lines 13-15. It is vague and unclear as to how the linear size of the slit of the valve is determined by the movement of the piston. Is it by the helical longitudinal guides along the inside wall of the working cylinder?

4. Claims 8 and 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
